

Linda Romanovska

IAC Member

Linda is a seasoned specialist in sustainability strategies and reporting, sustainable finance, and natural capital. Her expertise covers broad sustainability considerations in both the public and private sector including ESG governance, target setting and monitoring, climate change and transition policies and implementation plans, ESG risk integration, climate change adaptation and resilience planning, natural capital accounting, mobilizing sustainable finance and designing sustainable investment frameworks.

Linda has previously led the work for sustainability reporting compliance readiness in international markets for one of the world's largest tech companies, supported several investment funds in sustainability strategy and process development, and supported the development of Sustainable Finance Taxonomies and Corporate Sustainability Reporting frameworks globally.

Current and previous appointments, among many others, include:

- Technical Advisory Group Member – Australian Sustainable Finance Taxonomy (Australian Sustainable Finance Institute and Commonwealth Treasury)
- Member of the EU Platform on Sustainable Finance (European Commission, European Union)
- Member of ISO/TC 223 Sustainable Finance Committee (via Standards Australia)
- Advisor to the development of ASEAN Sustainable Finance Taxonomy
- Senior advisor supporting sustainable finance framework developments in several markets in the Global South, as well as the Global Green Bond Initiative

Linda is a member of the Environment Institute of Australia and New Zealand, the Australian Sustainable Finance Institute, the Responsible Investment Association of Australia, a member of the Commission on the Environmental, Economic and Social Policy of IUCN; and a Fellow of the Australian Human Rights Institute.

Linda holds the degrees of bachelor's in business management from the BA School of Business and Finance (Latvia), and Master of Science in E

ngineering (Sustainable Urban, Energy and Environmental Planning) from Aalborg University (Denmark). She is currently working toward a PhD in Natural capital valuation and inclusion in Sustainable Finance Frameworks at the University of New South Wales (Australia). She also holds Certificates in Sustainable Investing (Harvard Business School), Building Resilience to Climate Change (United Nations University) and in the United Nations SEEA-EEA Methodology for Natural Capital/Environmental-Economic Accounting.
